

Pleasant Valley Glads & Dahlias 2012 Catalog

2012 will be our 55th year in business. I would like to thank all the people who helped us plant and harvest a very good crop of glads and dahlias. My wife Karen, my mom and dad, Pat, Dennis, Sy, Joe, Bob Pike and Charlie Waterman.

We are no longer printing a catalog. If you need a copy I can download a copy and mail it to you. Mostly all of our orders are done from the website. You can pay by credit card using PayPal or send a check or money order.

We usually start shipping the last week of March. However, if needed a little earlier we will do our best to accommodate you. All fields are state inspected, certificate #112. We ship just about anywhere in the world. Special thanks to all our customers in 2011 and good growing in 2012.

Thank you,

Gary Adams

BEAUTY OF THE VELDT-Tall growing plant with bloom stems 30-40" tall, topped with ¾" diameter white flowers with black centers. As each flower withers, it is replaced by a fresh floret from bud. This way each bloom stem remains fresh for 10-14 days. Leaves are long and 2-1/2"-4" wide similar to an amaryllis leaf. Very attractive and easy to grow.
